

THE D³ Plan

*(Dave's Directed
Donations)*

**What charitable organizations
are you passionate about?
Here is an opportunity to
make a difference.**

Forensic Analytical has enjoyed 30 years of incredible growth and success. This journey has been supported by tremendous staff, clients and an undying passion in support of the sciences and a strong belief in people. The gift of passion is foundational in Forensic Analytical and it can be traced directly back to the founder, Dave Kahane.

As the firm celebrates its 30th year, Dave Kahane and his wife, Michelle Fox, are making a unique gift available to all members of the Forensic Analytical Family. They have set aside \$30,000.00 and they are providing you an opportunity to self direct one of twelve \$2,500.00 donations to the charity of your choice. A charity that you are passionate about.

The selection process for this wonderful opportunity is really quite simple. Please prepare a one page essay explaining your passion and why the charity/organization and its work is meaningful to you. Share your desire to make a difference.

Michelle will lead a committee to organize and award these grants. Please be sure to include the organizations name and the 501c3 tax ID number. Applications are due April 31st and submission details will follow.

Follow your passion and thank you for 30 wonderful years.
